

Dear Sirs, It is in my interest and the interest of my family that I respectfully request that K-LOVE radio station not be limited in their broadcast area. This is one of the only radio stations that my children are allowed to listen to without every other word a cuss word, sex, drugs and cheating. We are trying our best to raise children who respect and care for others. K-LOVE helps us do that with music that leaves all of the trash out. Sincerely, Cammie L. Hauser, RN
